OBJECTIVE

Aspiring Flutter developer with hands-on experience in building dynamic mobile applications. Passionate about creating efficient, user-friendly apps and contributing to impactful projects. Seeking a Flutter internship to enhance my technical expertise and gain industry exposure.

SKILLS

Technical skills:

- Dart programming language
- Responsive UI design
- Provider and GetX
- RESTful API integration, Swagger Documentation
- Git, Postman

Soft skills:

- Problem-Solving
- Attention to detail
- Creativity in UI design
- Time management

PROJECTS

Blog Posting App

- Developed a full-stack blog posting application with CRUD API integration
- Implemented pagination
- Swagger documentation was implemented for clear, user-friendly API specifications.
- Technologies used: Flutter (frontend), Node.js (backend), MySQL (database).

Freelancing Job Finder App (in progress)

- Designed a freelance platform connecting clients and freelancers with features like job posting, search, and proposal submission.
- Integrated API authentication for secure user login and registration
- Currently working on completing the job posting feature.
- Technologies used: Flutter (frontend), Node.js (backend), MySQL (database).
